STATINTL

General Manager

STATINTL

Dear Mr. [REDACTED],

The Multisensor Working Group sincerely appreciates the excellent briefing you presented on 13 February. The thirty-five contracts you reviewed are a particularly effective demonstration of what your company has done to determine the value and optimum uses of various sensors. It is hoped you will carry these efforts over into the strategic area.

Please feel free to call on me at anytime to discuss some of the problem areas which remain to be solved.

STATINTL

Chairman, Multisensor Working Group
